

Guest Speaker

Graeme Taylor

Author of *Evolution's Edge: The Coming Collapse and Transformation of Our World*

Living' on the edge

Graeme will give an illustrated presentation on the theories raised in his book 'Evolution's Edge' to explain why the collapse of the current global system is inevitable, why constructive change is possible, and how we can support the evolution of a better world.

Graeme is the coordinator of BEST Futures (www.bestfutures.org), a project using evolutionary systems theory to model societal change, analyse global problems and develop viable solutions.

Evolution's Edge uses societal evolution – the process by which societies reorganize themselves in more complex forms with new capabilities – to explain why the next level of civilization has already begun to emerge, bringing with it hope and great opportunity.

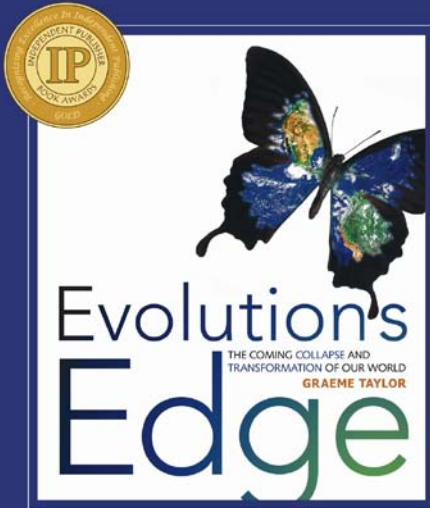

Come along and find out what you can do to support this evolutionary process

Wednesday 24th Feb, 2010 | Gecko House
6.30 - 8pm | 139 Duringan St, Currumbin

All are welcome to this free* presentation

Gecko presents a free guest speaker night on the 4th Wednesday of each month on topical environmental issues. For catering purposes and to prevent waste, RSVP by 3pm on the day before the event to speakers@gecko.org.au or call 5534 1412. For more information, visit www.gecko.org.au/guestspeakers

* A gold coin donation is requested per glass of wine and nibbles

Winner of the Independent Publisher's 2009 Gold Medal

for the book

"Most Likely to Save the Planet"

“
explain... how we
can support
the evolution of a
better world
