

Guest Speaker

Shaun Leinster

Director of DesignFlow

Stormwater – a valuable resource?

Award-winning Gold Coast environmental engineer and designer, Shaun Leinster, will give an interactive presentation on the benefits of stormwater harvesting to explain why capturing, managing and reusing stormwater is gaining interest. Trials are occurring in a number of cities around Australia.

Shaun is the director of Gold Coast-based consulting firm 'DesignFlow' and has been involved in the assessment of stormwater harvesting costs and benefits with the Gold Coast City Council and Queensland Government.

Using his designs of Coomera Waters Estate and the Southport Broadwater parklands as examples, Shaun will discuss water sensitive urban design (WSUD) and how it can be implemented successfully on the Gold Coast.

Come along and find out more about the potential benefits of managing and reusing stormwater on the Gold Coast...

Wednesday 24th March, 2010 | Gecko House
6.30 - 8pm | 139 Duringan St, Currumbin

All are welcome to this free* presentation

Gecko presents a free guest speaker night on the 4th Wednesday of each month on topical environmental issues. For catering purposes and to prevent waste, RSVP by 3pm on the day before the event to speakers@gecko.org.au or call 5534 1412. For more information, visit www.gecko.org.au

* A gold coin donation is requested per glass of wine and nibbles
