

"What I think, feel and do changes the world."

What we do...

We offer carefully crafted learning activities:

- Blending ecological concepts
- Contact with the natural world
- Earth caring

Why we do it...

As an independent community group, GeckoEd delivers innovative presentations linking curricula to life experiences.

Many of GeckoEd's educational activities are:

- unique
- interactive
- interpretive

GeckoEducation

Effective environmental education

A not-for-profit business

GeckoEd offers participants opportunities to delight in, learn and benefit the environment.

Prices for visits & excursions on application

Small steps - Amazing feats

"GeckoEd fosters a relationship with planet Earth, an understanding of its systems and a personal capacity to contribute to appropriate change."

We can visit you! Classroom Visits

Experienced educators can visit your class, club, staff meeting or group.

Delivered content is linked to curricula and includes nature's cycles, relationships, habitats and connectivity.

You can visit us! School Excursions

Schools are encouraged to contact us for help in organising excursions to the estuary, mangroves, beach and catchments of Currumbin close to Gecko House.

Visits to other Gold Coast ecosystems and habitats can be arranged to suit your student's needs and tasks.

You can request!

Programs designed according to student needs and curricula

They include:

- Catchments
- Coasts and Estuaries
- Rainforests
- Biodiversity
- Climate Change
- Bushfire Management
- Threatened species
- Or a program requested by you.

GeckoEd's trained and experienced educators are committed to fresh and innovative learning experiences.

Educating for sustainability - in our part of the world
